

## Master Thesis Guidelines – LMI track

Several students have asked and are asking information about the format of our Master's theses.

LMI students are highly encouraged to write the thesis in LaTeX. Templates are available at: <https://www.overleaf.com/gallery/tagged/thesis>. FRONT PAGE

Below an example of the GENERAL STRUCTURE OF THE THESIS

ABSTRACT: 250 words maximum

INTRODUCTION: The student should introduce the main idea and motivation of the work with a clear statement of the main outcome of the work.

BACKGROUND: if necessary, provide some background

RELATED WORK: The student should write a critical literature review. The purpose is to report knowledge and ideas that have been established on the topic of the thesis, and what their strengths and weakness are. This introductory chapter should be at least 4000 words in length.

PROPOSAL: description of the proposal to address the question raised in the introduction.

MODELS, DATASET: Description of the models and datasets used in the experiments

EXPERIMENTS, RESULTS: Description of the experiments and the results obtained

ANALYSIS: In depth qualitative analysis of the results.

CONCLUSION
